

CLOUDFARMS

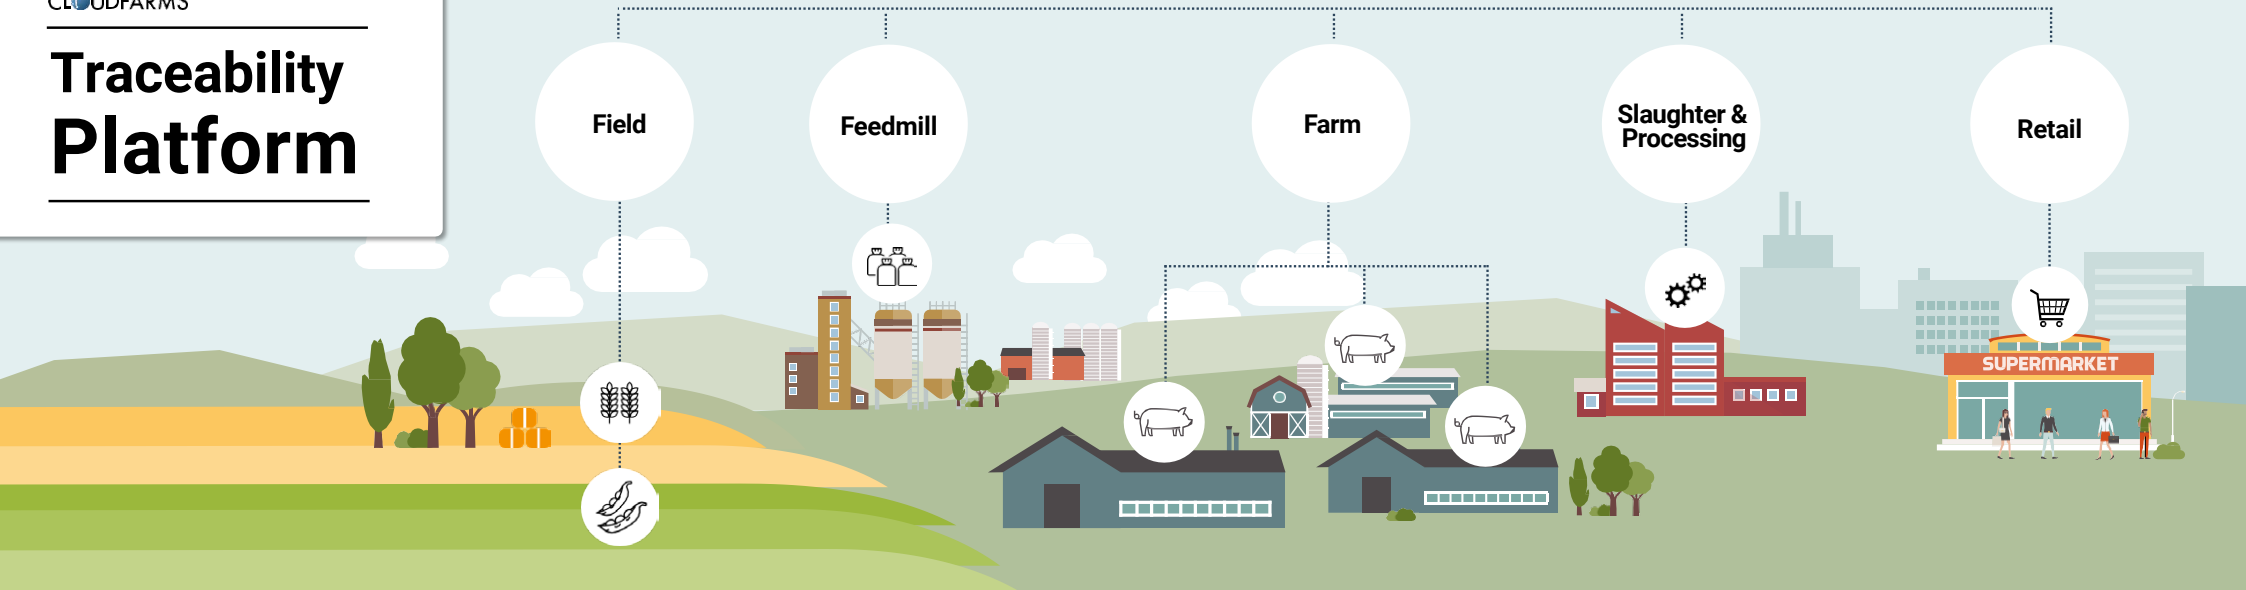

Transparency from field to fork

CLOUDFARMS

Traceability Platform

Traceability Platform

Our Traceability solution enables companies along the whole pork value chain to quickly and securely enter, analyze and exchange data. Get the full supply chain overview and provide the provenance of your products.

Transparency

Fulfill legal standards for food safety and quality, create marketing value.

Traceability

Trace your products and gain full visibility of the supply chain.

Efficiency

Get data-driven insights to optimize supply chain inefficiencies.

Data Management

Enter and analyze data on one platform. Share it securely with value chain partners.

Features

- "Pig Passport"
- Contaminated batch identification & recall
- Stock overview
- Sustainability
- Standards, regulations, audit support
- Incident tracking
- Integrations: logistics optimization, data warehouse

CLouDFARMS

Traceability Platform

Use Case #1

Track your products
across the supply chain
from **field to fork**

CLouDFARMS

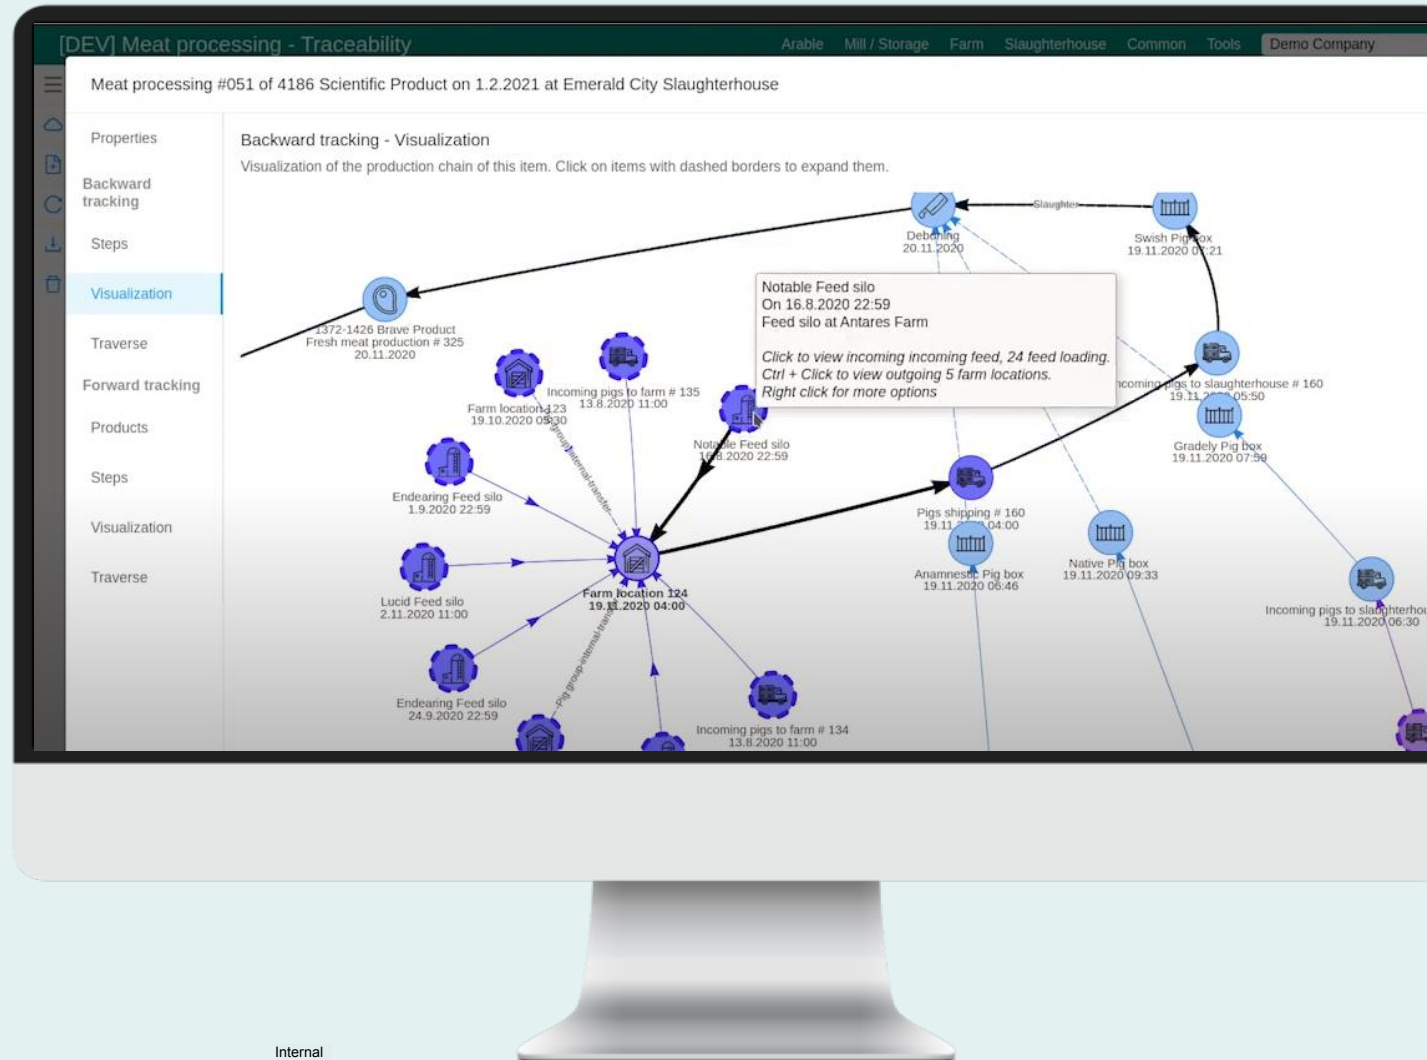

Traceability Platform

Use Case #1

Benefits

- ✓ Improve brand
- ✓ Increase market share
- ✓ Charge price premium

CLOUDFARMS

Traceability Platform

Use Case #1

Testimonial

Goodvalley
~45,000 sows
Europe

“Since early 2021, consumers in supermarket stores can scan all Goodvalley’s products and see the process from the first grain for feed to the last slice of ham. To share information about every step of the production process, we added a QR-code on our product packaging.”

Holger Axelgaard
Chief Information Officer
Goodvalley

CL^oUDFARMS

Traceability Platform

Use Case #2

Identify **contaminations**
and optimize product **recalls**

CL^oUDFARMS

Traceability Platform

Use Case #2

Benefits

- ✓ Save time
- ✓ Reduce costs
- ✓ Avoid hazzle

[DEV] Contamination - Traceability

Arable Mill / Storage Farm Slaughterhouse Common Tools Demo Company

Spread

Meat processing # 044

Product: 3912 Sage Product
Date: 28.1.2021
Location: Emerald City Slaughterhouse

Test result:

Meat processing # 044

Product: 3912 Sage Product
Date: 28.1.2021
Location: Emerald City Slaughterhouse
Contamination found.

Properties of selected meat process

- Born
- Raised
- Slaughtered
- Internal meat
- Raised without antibiotic

Traceability Platform

Use Case #3

Have complete overview
over **stocks** along the
supply chain

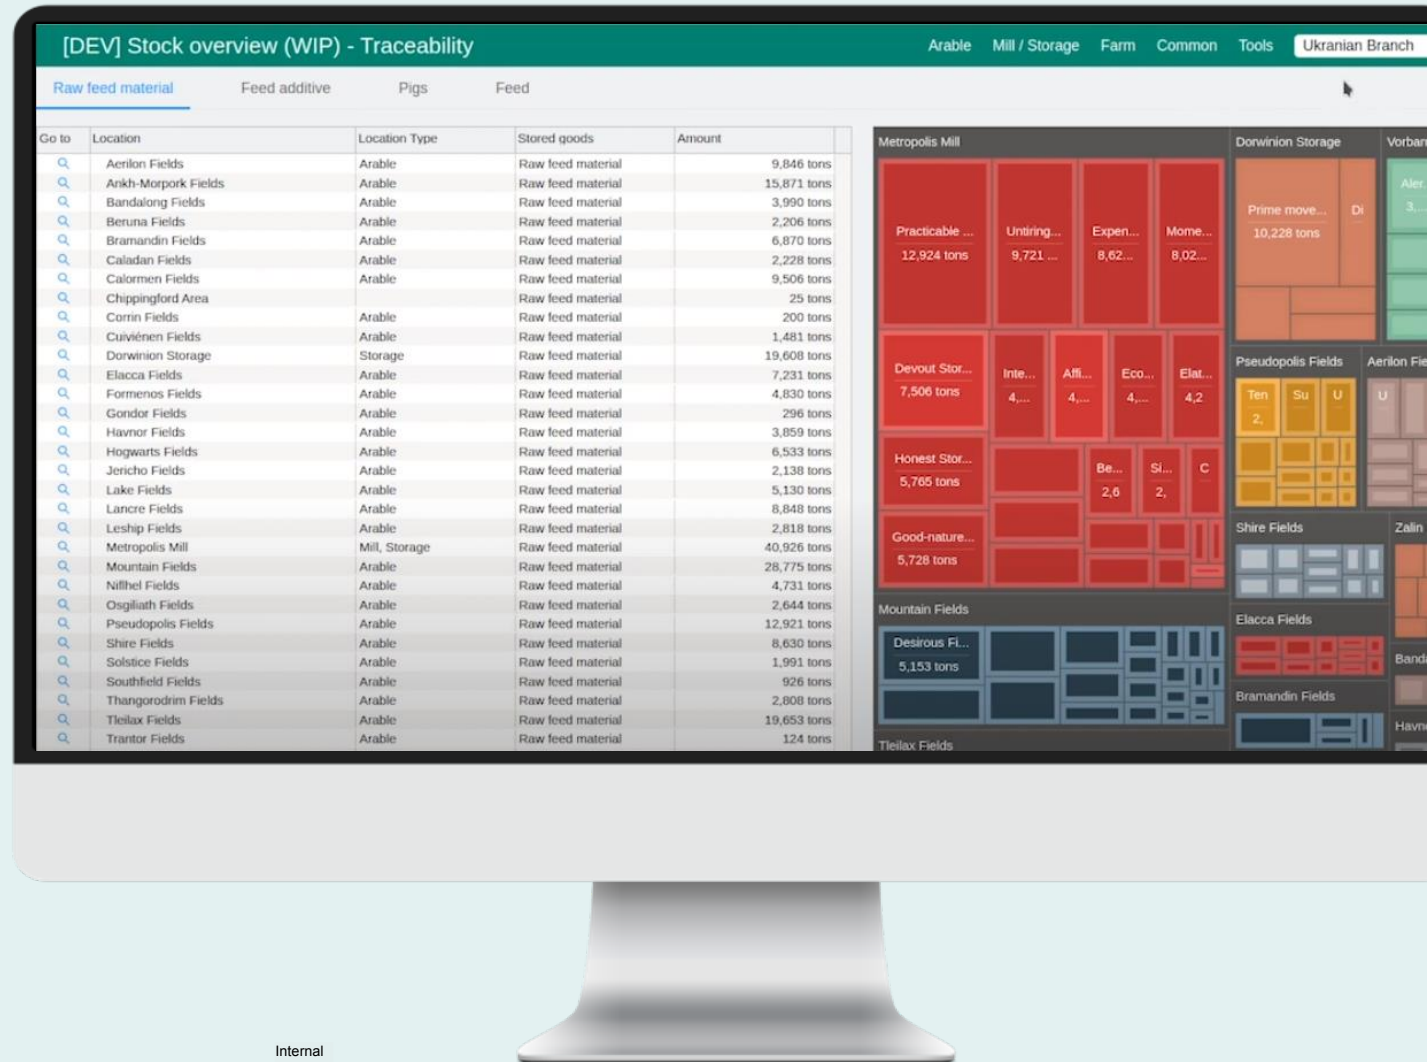

Traceability Platform

Use Case #3

Benefits

- ✓ Have full information
- ✓ Increase transparency
- ✓ Connect the supply chain
